Luis Arellano provided the monthly financial report including the agency forecast, monthly operating expenditures, year-to-date budget adjustments, cost recovery program results, revenue forecast, and a list of financial transactions that are not included in the operating budget. Mr. Arellano informed the Commissioners that TFC currently has 317 positions filled (FTEs). In addition, he stated that there is a
projected shortfall for the month due to utility bills and that all of our bills have not been paid because vendors are lagging on the bills 30-60 days. Budget adjustments have been made throughout the month to increase budgets due to cost recovery. The Recycling Program budget is being reduced significantly due to price adjustments, most significantly to account for the lowered price of paper. Finally, the Surplus Property Program continues to do extremely well.

XIII. Monthly Status Report from Internal Auditor, Mark Scott. Mark Scott discussed the State Auditor’s Office (SAO) report on the status of open findings completed in accordance with Government Code Section321.014 (f). The last open finding addressed the need for improved documentation to support how a vendor is selected in an emergency procurement, which the agency has since cured. That finding is now reported as fully implemented and there are now no unresolved findings on external audits by the SAO and no ongoing external audits. The Internal Audit team is currently working on an internal audit on facilities contracting.
