

Who is eligible to bid on State Surplus Online Auctions?

The Texas Facilities Commission is statutorily charged with administering the State of Texas's surplus property program. Surplus property comes to our agency from state agencies all across the State of Texas. The property available for purchase through online public auction have all been determined by the State to be surplus property.

State Surplus Online Auctions are open to the general public. Auctions are held on and conducted over the internet with Lone Star Auctioneers on a "as needed basis." We highly recommend that customers who are interested in being notified of newly listed auctions, register with the auctioneer. Upon request, the auctioneer can send registered users email notifications as online auctions become available. For all customers not registered, please visit www.isoauctions.com at least weekly for newly listed auctions.

In order to participate in an auction, a customer must first register through Lone Star Auctioneers. A new user registration form will need to be completed and can be found on Lone Star Auctioneers homepage. Users will be required to provide a picture of a current, government-issued photo ID (Preferably a Driver's License) by fax, email, or in person. Please Note: All applicants must be at least 18 years of age to register as a user and account activation takes 2 full business days.

Auctions are held at our Austin storefront and throughout the entire state. Most property located outside of the Austin area is typically sold via online auction.

The emails **MUST** include the name of the seller listed on the paid receipt, location, lot number, and the first and last name of the person who will be picking up. This email will serve as the buyers official release authorization and the person picking up will be required to present a valid GOVERNMENT ISSUED picture identification card before anything can be removed.
